DETAILED ACTION

Allowable Subject Matter

Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 1-13, there is no prior art of record that teaches A polarizing element comprising a polarizer, a negative C plate, a positive A plate, and a positive C plate each arranged on one side of the polarizer, wherein: the positive A plate is arranged between the polarizer and the positive C plate such that a slow axis of the positive A plate is substantially perpendicular to an absorption axis of the polarizer; and the positive C plate has $R_{thpc}[590]$ of 60 nm or less.

Kashima US Patent 7508474 teaches a polarizer, negative C plate and positive A plate arranged on one side of a polarizer, however fails to teach the positive A plate arranged such that it is between the polarizer and positive C plate. Kashima lacks teaching of a third positive C plate disposed on one side of a polarizer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
